Dear Mr Williams,

Thank you for the clarification we appreciate you responding to our correspondence on this.

Yours Sincerely,

Mat

Morning Mat,

I can confirm that Angus Fire has not received an interpretation report from Ramboll. We asked Ramboll to provide a simpler summary of the technical reports to help people to understand the complex results. These 'technical notes' are also included on the microsite.

Best Regards

Paul

Subject: Re: Latest Ramboll Report

Dear Mr Williams,

Thank you for your quick response. Our Environmental expert tells us that the Interpretation report is different from the Technical Reports and would explain the factual data within the technical notes and any implications of the results, and sometimes accompanies these technical notes.

Can you confirm whether Angus Fire has received an interpretation report from Ramboll and if you did, is Angus Fire willing to share the contents of this information with the stakeholders (residents) of Bentham?

Thank you for your time,

Mat
