Subject: Re: Elaboration on Angus Fires Statement to Bentham News.
Dear Mr Williams,

Unfortunately, this does not answer the specifics of the question asked.

My question centred around your communications definitions of the following:

- which "natural resources",
- what "civil infrastructure"
- and which parts of the "environment this work will be undertaken.

For example, is this work targeted at the Angus Fire site or beyond into the community and the areas Environment as your reply below sounds like AISG only plan to remediate the Bentham site and the damage done there, is this correct?

As these communications go onto our website would appreciate a straight answer so that the community can understand AISGs target for remediation.

Thank you for taking time to answer,

Yours,
Mat
