Dear Mat

Thank you for your recent email enclosing a letter and briefing on Cleaner Bentham's work.

As you are aware I have recently held a series of meetings with you, the company, the council and Environment Agency. I remain confident that the Environment Agency and North Yorkshire Council are fully engaged in managing this situation.

I continue to be updated by the organisations involved but believe it is important to give confidence to the public that there is a robust process in place that must be allowed to run its course.

Yours sincerely,

Rt Hon Sir Julian Smith KCB CBE MP
